

## Thame Town Council's Exciting New Community Project

Thame Town Council have now submitted their planning application for what will be the largest and most exciting community project for many years.

To be located where the current changing room block is on the Southern Road recreation ground, this community & youth building has been designed by Acanthus Clews architects; Throughout the process they have consulted with the community and young people of Thame to deliver a design that incorporates the needs of Thame's youth and the flexibility to provide a facility to the wider community.

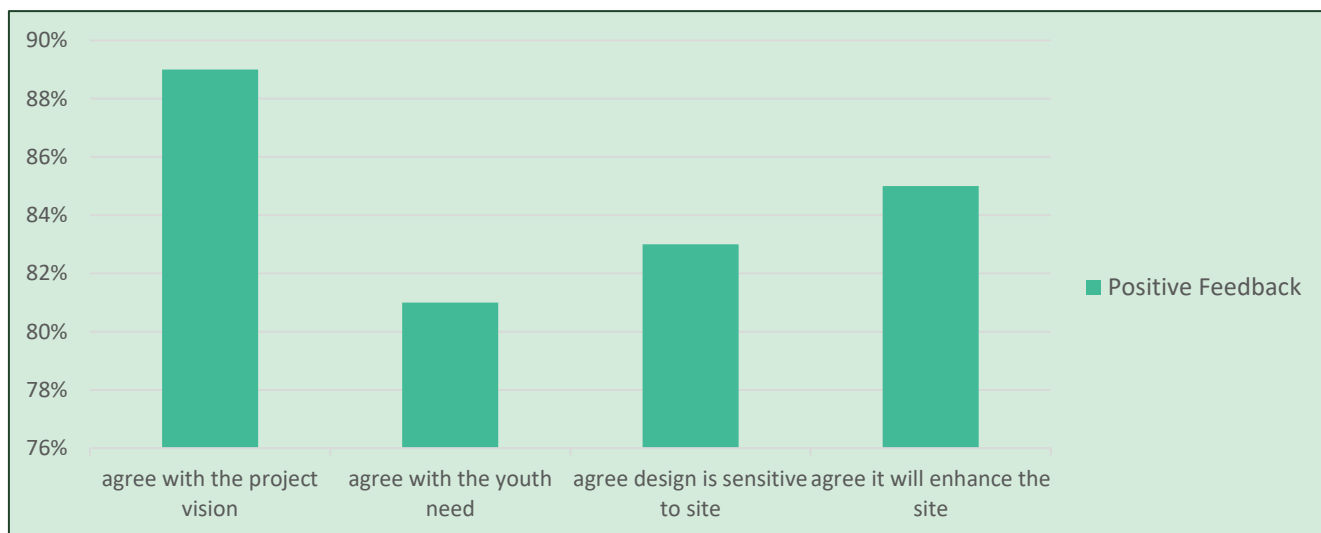

[The full planning application can be seen here](#)

Throughout our journey we have been asking for your opinion – prior to the recent consultation on 19 November 2022 all these groups have already given us valuable feedback:

800 of the 2,200 students at Lord Williams’s School responded	250 responses from the general Thame Community	Park Life
Youth Café	St Joseph’s School	Youth Zone
Air Cadets	John Hampden School	Sport England
Army Cadets	Scouts	Thames Valley Police
Barley Hill School	The Guides	

During our latest consultation we received the following positive feedback:

Our next and greatest challenge will be to raise the funds to deliver this community project for the people of Thame; To provide a facility to serve the whole community now and for generations to come.

This is just the beginning – watch out for updates, follow our progress, and see how you may be able to help.
