Holding utilities companies to account

OCC is seeking permission from the government to adopt a 'lane rental scheme'. The scheme aims to reduce disruptive roadworks by utilities, incentivising them to keep to schedule and work off-peak. Fees of up to £2,500/day can be collected and reinvested in the road network. The surplus could be upwards of £2 million a year from 2024-2025.

Pothole trial

A trial took place in Steventon and East Hanney testing seven different methods of repairing minor defects in the road surface. Some of the methods are already in use in Oxfordshire, while others are new types of repair. The trial will inform how defects are repaired in the future.

Fees for DIY waste

The government has announced charges for DIY waste collected at household waste and recycling centres (HWRC) should be abolished. OCC is awaiting instruction from the government on when this change should be made. The charges currently help to subsidise the cost of running waste collection centres by £0.5m a year. Government is providing no additional funding to cover the shortfall created, meaning funding will need to be found through savings or increased council tax

Nature recovery

Oxfordshire County Council has been designated as the lead authority for nature recovery in the county. The responsibility comes with additional funding from a £14 million pot to be divided between 48 councils. Local nature recovery plans were made a legal requirement by the Environment Act 2021

New cabinet member:

Cllr Kate Gregory takes over the cabinet portfolio for Community Services and Safety.
